

# Adventure Trail Hikes

Fulfil your wanderlust

Welcome to Adventure Trails Hikes! We aim to offer the most exciting, challenging, educational, and cultural extreme hikes, in exhilarating locations around the globe. We have a variety of standard packages, as well as offering specialized tours that will cater to your specific requirements.

# Our Hikes

## Camping hikes

Camping hikes are longer than short hikes and include 3 or more nights camping. You may bring your own camping equipment, or we can supply it for you.

# Our Guides

At Adventure Trails Hikes, we employ local guides who know and understand the local terrain, but also have insight into the culture and history of the area. We believe in working with local communities to offer once-in-a-lifetime adventures that benefit everyone.

Our guides are passionate about hiking and exploring the world by taking time to appreciate nature's small wonders and magnificent beauty. They will point out areas of interest, and will answer questions about flora and fauna found along the trail.

All of our guides have extensive training and experience in leading hiking groups, and can adjust the hike and itinerary to match different skill levels. All have first-aid certification and are expert navigators of the various routes.

# Sustainability

Sustainable tourism is important to us. Our world has amazing natural resources, and it is important that future generations can enjoy them as well. Not only do we want to ensure we don't damage natural resources and local communities, but we want to work together to help them flourish.

## Ethical travel

Our trips are planned with both environmental and cultural sustainability in mind, with the goal of leaving the smallest ecological footprint on the hiking area. Participants are expected to respect their hiking trail and behave accordingly.

## Local connections

Adventure Trails works closely with local organizations to ensure that much of the profit goes back to the local communities. This may be in the form of infrastructure and trail maintenance to supporting local businesses and communities.

## Respect for nature

Many of our hikes include extra activities such as bird watching and short courses on edible local plants.

## Cultur

In the interest of cultural exchange and sustainability Adventure Trails also includes cultural activities, which include experiences of various local customs, dress, theatre, dance, and music.
